### Announcement

The ‚Hans Lehmann KG‘ was founded in 1926 and is today active as shipowner with 7 multipurpose vessels in worldwide trade, as Port Operator with 4 owned multifunctional Terminals, as trader for bunkers, petroleum products as well as construction materials and is finally producing concrete at 4 own factories. „Lehmann“ stands for experience, reliability, flexibility and fairness. An effective organizational structure and a highly motivated crew ensures best services and individual solutions for all requirements of our deemed customers.

Since meanwhile 8 years, the Lehmann group had been closely and trustfully incorporated with ECS Eurocargo Services, Hamburg. The ECS MD Gustav Jacobsen in same person represented the Reederei Hans Lehmann KG as well as guaranteed for the employment of the Lehmann tonnage in alliance with the ECS direct controlled tonnage.

In consequence of company structure changes at both ECS Hamburg and Lehmann Lübeck, it had been mutually agreed to end this trustfull relation in both fields with the end of December 2010. As from January 2011 the Hans Lehmann KG will be directly operating again its own fleet independently at her company headquarters at Lübeck.

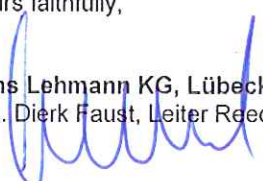

With beginning of November 2010, Mr. Dierk Faust took over the Director Position of the Reederei Hans Lehmann KG from Gustav Jacobsen. With Sven Lohse, a likewise well-known colleague will look after the chartering activities next to many other highly motivated staff. By this and for our customers, a well-known and experienced team of people is looking forward to continue and extend top quality service and business with you.

„Lehmann“ will continue to invest in her fleet of vessels to ensure highest standard of tonnage and to always meet our customer request for individual services. Today, the Lehmann Fleet consists of the vessels:

**MV „Hans Lehmann“, MV „Edgar Lehmann“, MV „Anna Lehmann“, MV „Karin Lehmann“, MV „Heike Lehmann“, MV „Marie Lehmann“, MV „Siegfried Lehmann“**
